Introduction

The National Bureau of Statistics has produced a number of documents containing some Census 2008 information. Also produced are a number of reports providing analysis of census data.

The Bureau has also produced three main releases. Volume One presented population distribution by residence and sex. Volume Two gives population distribution by age group by sex by payam.

There are three parts to that volume:

Part One: Greater Upper Nile

Part Two: Greater Bahr el Ghazal

Part Three: Greater Equatoria.

This is the third main release. It presents the distribution of population of South Sudan by sex and by boma
